Ankara, Turkey

Profile

QA Engineer with **2+** years of hands-on experience in **manual and automation testing** across **SDLC/STLC** processes. Experienced in **test case design, regression testing, defect tracking,** and **Selenium-based automation using Java, TestNG, JUnit,** and **Cucumber.** Proficient in **API testing** with **Postman, Jira-based defect management,** and close collaboration with development teams. Strong analytical background with a **quality-driven mindset** and continuously improving technical English for effective documentation and team communication.

Professional Experience

Software Test Engineer (Manual & Automation) – Metricopt

01/2024 – Present

- Designed and executed **manual test cases** based on **functional** and **business requirements.**
- Performed **smoke, sanity,** and **regression testing** to ensure release quality.
- Automated critical test scenarios** using **Selenium WebDriver** with **Java** and **TestNG.**
- Logged, tracked,** and **retested** defects in **Jira,** providing clear and detailed reproduction steps.
- Conducted **API testing** and **response validation** using **Postman.**
- Collaborated closely with developers throughout the defect lifecycle.
- Used **GitHub** for **version control** and **test automation** project management.

Skills

- Languages:** Java, Python, C
- Testing Tools:** Selenium Web Driver, Cucumber, TestNG, JUnit, REST-Assured, Postman
- Version Control Systems:** Git, GitHub
- Project Management Tools:** Jira
- Database Technologies:** SQL, MySQL
- Methodologies:** Agile, SDLC, STLC
- Testing Types:** Regression, Functional, Smoke, Sanity
- Design Patterns:** Page Object Model (POM), Singleton Pattern
